

# Mohammed Sumair Khan

QA Engineer

+919916358557 | sumair.qaengineer@gmail.com | Bengaluru, Karnataka, India | [LinkedIn](#) | [GitHub](#)

## SUMMARY

Hands-on experience in Java, Selenium WebDriver, TestNG, Cucumber, Maven, MySQL, HTML, CSS, JavaScript, Git, and Jenkins. Skilled in automation testing, cross-browser, and parallel testing, with expertise in building scalable test frameworks, backend validation, and ensuring high-quality software delivery.

## SKILLS

**Automation Tools & Frameworks:** Selenium WebDriver, TestNG, Cucumber, ExtentReports, Maven, JSON, XML, Appium, JMeter

**CI/CD & Build Tools:** Jenkins, CI/CD Pipelines

**Testing Skills:** Manual Testing, Automation Testing, Functional Testing, Regression Testing, Data-Driven Testing, Bug Reporting, Test Planning, Load Testing, Performance Testing, Stress Testing, Mobile App Testing

**Programming & Database:** Core Java, J2EE, JDBC, MySQL

**Web Technologies:** HTML, CSS, JavaScript (DOM)

**Version Control:** Git

## WORK EXPERIENCE

### Manasio Private Limited

SDET Training

Jun '25 — Present  
Bengaluru, India

- Validated front-end components using HTML, CSS, and JavaScript (DOM).
- Mastered Core Java, Java 8, J2EE, JDBC to build robust automation frameworks.
- Learned SQL and MySQL Database for backend validations.
- Developed and executed automated tests using Selenium WebDriver, TestNG, Maven, and Cucumber.
- Conducted functional, regression, smoke, cross-browser, and parallel testing to ensure high-quality releases.
- Implemented Listeners and Extent Reports for detailed test execution reporting and tracking.
- Managed code and builds via Git, GitHub, Jenkins, and CI/CD pipelines.
- Optimized test coverage, debugging, and overall code efficiency for faster and reliable delivery.

## CERTIFICATIONS

**Java Certification**, by Hacker rank, Validated skills in Java syntax, programming fundamentals, OOP concepts, control structures, and debugging through an industry-recognized assessment.

Nov '24

**SQL Certification**, by Hacker rank, Validated core skills in SQL queries, database concepts, data manipulation, and problem-solving through an industry-recognized assessment.

Nov '24

## PROJECTS

### Manasio Private Limited, Sumanvi Project Management Tool

Jul '25 — Sep '25  
Bengaluru, India

- Automated repetitive test scenarios using Java, Selenium WebDriver, and TestNG to streamline the testing process.
- Implemented Page Object Model (POM) and DataProviders with JSON for scalable and maintainable test scripts.
- Maintained Maven dependencies and version control via Git and GitHub.
- Conducted manual testing, tracked defects, and maintained reports in Google Sheets for team visibility.
- Generated Extent Reports with Listeners to provide detailed automation test results.
- Ensured end-to-end testing coverage including functional, regression and smoke testing.

### Manasio Private Limited, Imejob Automation Suite – Ongoing

Sep '25 — Present  
Bengaluru, India

- Currently working on automation scripts using Java, Selenium WebDriver, and TestNG for a live project environment.
- Implementing Page Object Model (POM) and DataProviders with JSON for scalable and maintainable tests.
- Performing manual and automation testing to ensure end-to-end functionality and quality of live features.
- Maintained Maven dependencies and version control via Git and GitHub.
- Generating detailed Extent Reports and using Listeners to track test execution and results efficiently.

## EDUCATION

### Bachelor of Engineering in Computer Science, Visvesvaraya Technological University

Sep '20 — May '24  
Koppal, India
